PAST WORK – VIDEO PRODUCTION / PHOTOGRAPHY

Stone Farm needed visuals that could sell the experience of staying there not just show four walls. v7k delivered a full cinematic package built specifically for their Airbnb listing, combining aerial perspective, intimate interiors, and bracket photography to capture the property at its best light.

HDR bracket photography

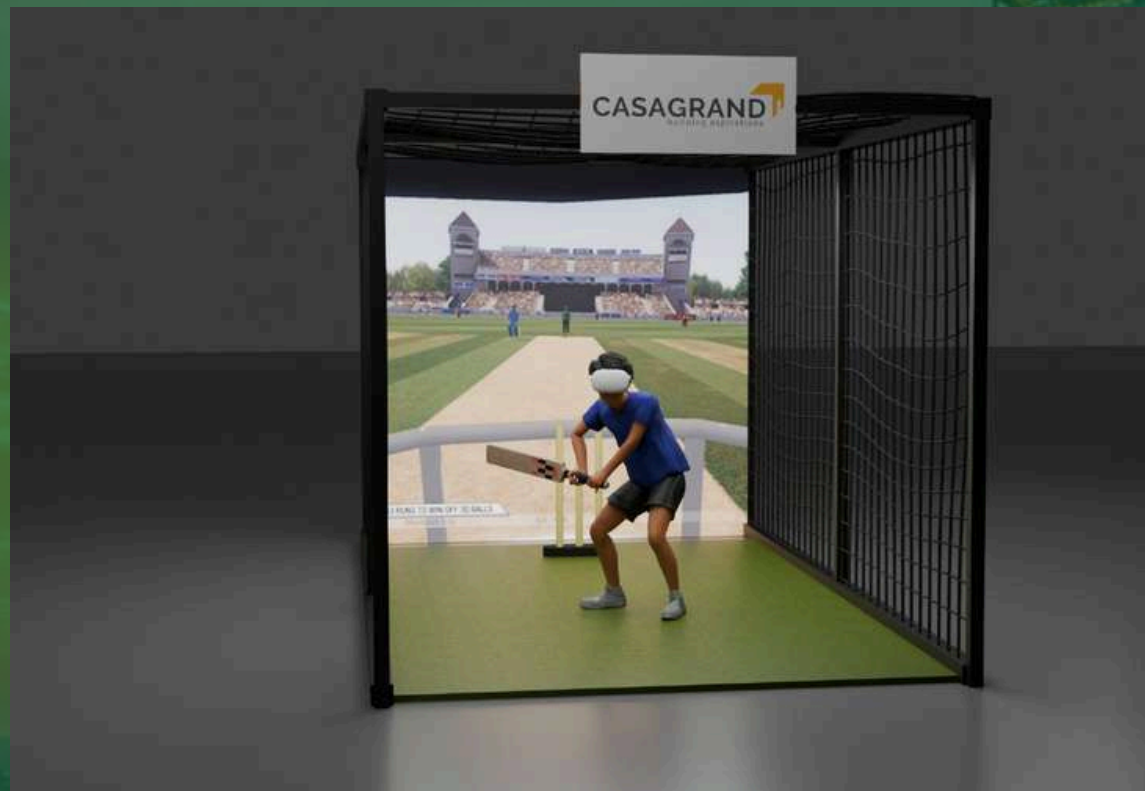

Multi-exposure bracket photos of every room and outdoor space blended for perfect exposure, ideal for Airbnb listings where static photos drive the first impression.

Facade, garden & grounds

Wide and medium shots of the farm's exterior the entrance, outdoor spaces, garden, and surroundings shot to showcase the property's character and setting.

PAST WORK – CASAGRAND LEAD GENERATION ACTIVATION

Strategy Behind The Campaign

Instead of directly pitching properties:

- We attracted families through entertainment
- Increased engagement time
- Built emotional connection with parents
- Collected warm leads from genuinely interested families

Campaign Impact

- Increased parent engagement
- Higher quality walk-in leads
- Better brand recall
- Stronger emotional association with the brand

Brands that win in real estate are not the loudest. They are the most strategically positioned.
